Cottesloe records WA's highest income

Cottesloe residents recorded the highest average income in Western Australia in 2009-10, according to figures releases today by the Australian Bureau of Statistics (ABS).

ABS Director of the Rural and Regional National Statistics Centre, Lisa Conolly said the *Estimates of Personal Income for Small Areas* publication uses data from the Australian Taxation Office to provide a breakdown of information such as personal income by wage and salary, investment, superannuation and annuities.

“The average total income for Cottesloe was $113,892, with the beach-side suburb being the only region outside of New South Wales and Victoria to have an average total income exceeding $110,000

“The next highest income earners in Perth were Nedlands - Dalkeith - Crawley on $106,981, City Beach $102,971 and Mosman Park - Peppermint Grove on $99,609, with all three regions recording incomes more than double the national average of $48,530.

"Outside of Perth, the regions recording the highest average total income levels were the Pilbara mining areas of Karratha on $79,925, Port Hedland on $78,584, Roebourne on $75,316 and Ashburton on $73,645.

“Overall, the average total income for the state of Western Australia is $53,397 which is higher than the national average of $48,530.

“Australia’s highest earners are those in the Melbourne suburb of Toorak who earn an average of $132,252 per year.

“Over 31 per cent of all regions in Western Australia had annual average total incomes above the state level of $53,397.

“Nationally, Western Australian had the second highest average income level, only behind the Australian Capital Territory which had an average total income of $58,034”, said Ms Conolly.

More details, including data for states, territories and smaller regions, can be found in *Estimates of Personal Income for Small Areas, 2009-10* (cat. no. 6524.0.55.002) available for free from the
